UO

Ufoma Odufejo

Professional Summary

Resourceful professional with successful track record in developing innovative web designs and features. Possesses solid knowledge of HTML, CSS, JavaScript with ability to quickly learn new technologies.

Work History

CISH.NG - Front End Developer Intern
Lagos, Nigeria
06/2023 - 02/2024

- Enhanced user experience by developing responsive and interactive web applications.
- Streamlined codebase by refactoring HTML, CSS, and JavaScript for improved performance and maintainability.
- Collaborated with designers to ensure seamless implementation of UI/UX designs into functional web pages.
- Optimized website performance through efficient use of caching strategies and compression techniques.
- Participated in agile development methodologies, contributing to regular stand-ups, sprint planning sessions, and retrospectives for continuous improvement of processes and products.
- Worked closely with QA teams to resolve defects quickly, ensuring a high-quality final product before deployment to production environments.

Projects

Care Finder Website, **Care Gazer** – Frontend Engineer
Link: https://care-gazer.vercel.app/

- Spearheaded the development of a cutting-edge, responsive web application using Next.js, TypeScript, and Tailwind CSS, revolutionizing the user experience for hospital discovery and appointment booking.
- Implemented TypeScript with precision, instilling static typing to elevate code reliability and maintainability, showcasing a commitment to delivering robust and error-free solutions.
- Engineered the application with Next.js for superior server-side rendering, strategically optimizing performance metrics and achieving remarkable reductions in page load times, ensuring a seamless and efficient end-user interaction.
- Crafted a visually stunning and consistently designed user interface employing Tailwind CSS, emphasizing a user-centric approach and

Education

CDI College
Brampton, ON
High School Diploma

07/2023

delivering an exceptional, device-agnostic layout.
- Showcased proficiency in a comprehensive tech stack, featuring Next.js, TypeScript, Tailwind CSS, JavaScript, HTML, and CSS, underscoring a versatile skill set and dedication to utilizing the best tools for optimal outcomes.

E-commerce Website, **Africommerce-** Frontend Engineer
Link: *https://github.com/ufomaodufejo/africommerce-saas*
- Initiated and cultivated collaboration in a thriving open-source e-commerce project on GitHub, engaging with 20 software developers to maximize partnership opportunities and contribute to the project's success.
- Collaborated seamlessly with a dedicated team comprising 10 frontend developers and 8 backend developers to develop and maintain a feature-rich e-commerce site utilizing React and Material UI, emphasizing effective teamwork and project cohesion
- Led the creation of three pivotal features - the profile page, wishlist page, and sent refund request page - showcasing a proactive approach to enhancing user experience. Implemented design improvements based on valuable feedback from project managers, ensuring alignment with project goals.
- Actively participated in weekly stand-up meetings, presenting comprehensive project updates and proposing innovative ideas to streamline workflows and improve project efficiency.
- Contributed significantly to the project's success by improving existing codebase to implement mobile responsiveness, enhancing the site's accessibility across various devices and optimizing the overall user experience.

Bookstore Website, **Beacon Store** - Frontend Engineer
Link: *https://iridescent-squirrel-9f4eb7.netlify.app/*
- Spearheaded the design and development of a visually captivating bookstore website, employing React and Material UI to ensure an engaging and intuitive user interface.
- Published the project on GitHub, utilizing version control for seamless collaboration, and deployed the website on Netlify, showcasing proficiency in modern development workflows and deployment processes.
- Demonstrated technical prowess by seamlessly incorporating data from an open API at randomuser.me into the React application, showcasing versatility in API consumption and integration techniques.
- Implemented a robust and visually appealing responsive web design, ensuring optimal user experience across various devices and screen sizes, underscoring a commitment to accessibility and user-centric design principles.

Altschool Africa
Lagos, Nigeria
Diploma: Front End Engineering

12/2016
University Of Lagos
Lagos, Nigeria
Bachelor of Science: Pharmacy
